FLEXIBLE POSITION OF DIVIDERS

One divider might be installed in a **variety of configurations**.

- Creating a basic shelf (with no dividers)
- Dividing the shelf into two sections
- Working as a side wall of a sideways stand

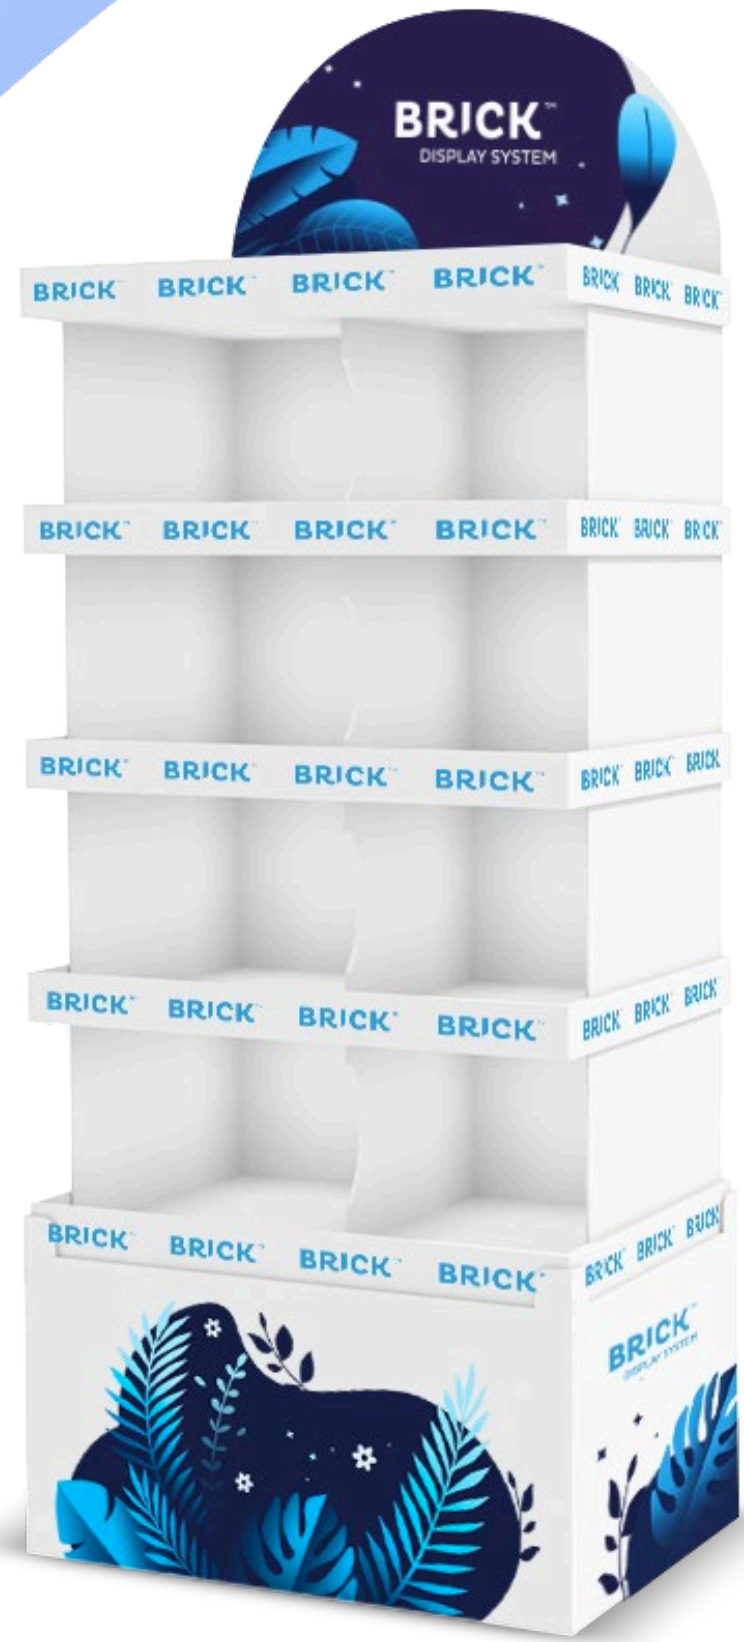

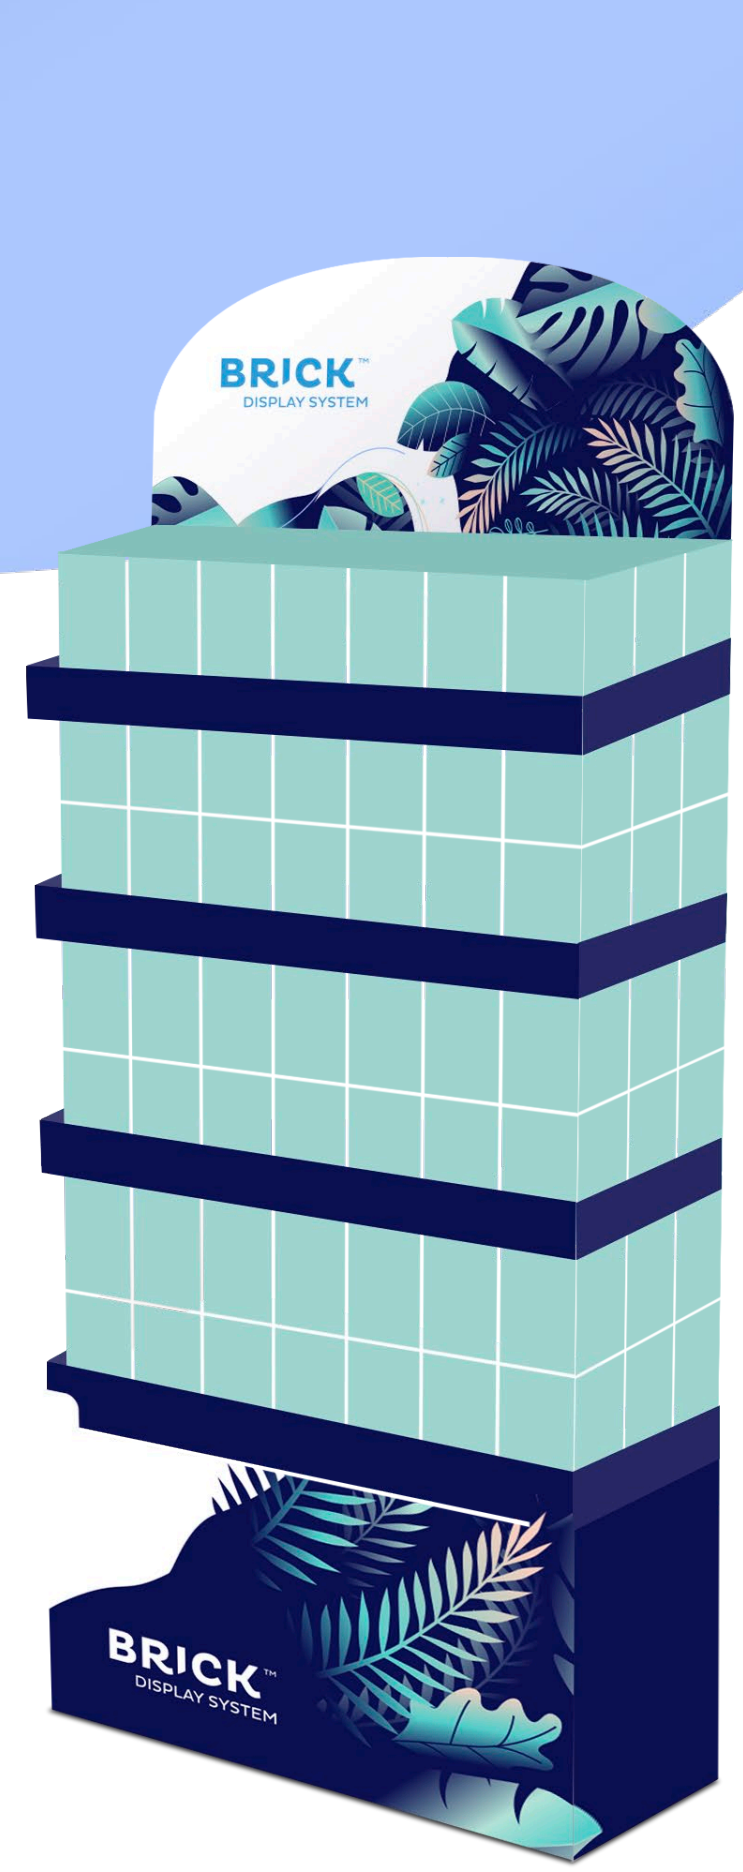

We have designed dividers for light and heavy weight products. Height of dividers might differ as well. They can be adjusted to your needs.

BASES – UNIFIED HEIGHT

CHEP PALLET COMPATIBLE

The stand can have an additional base
that is the **equivalent of chep pallet**

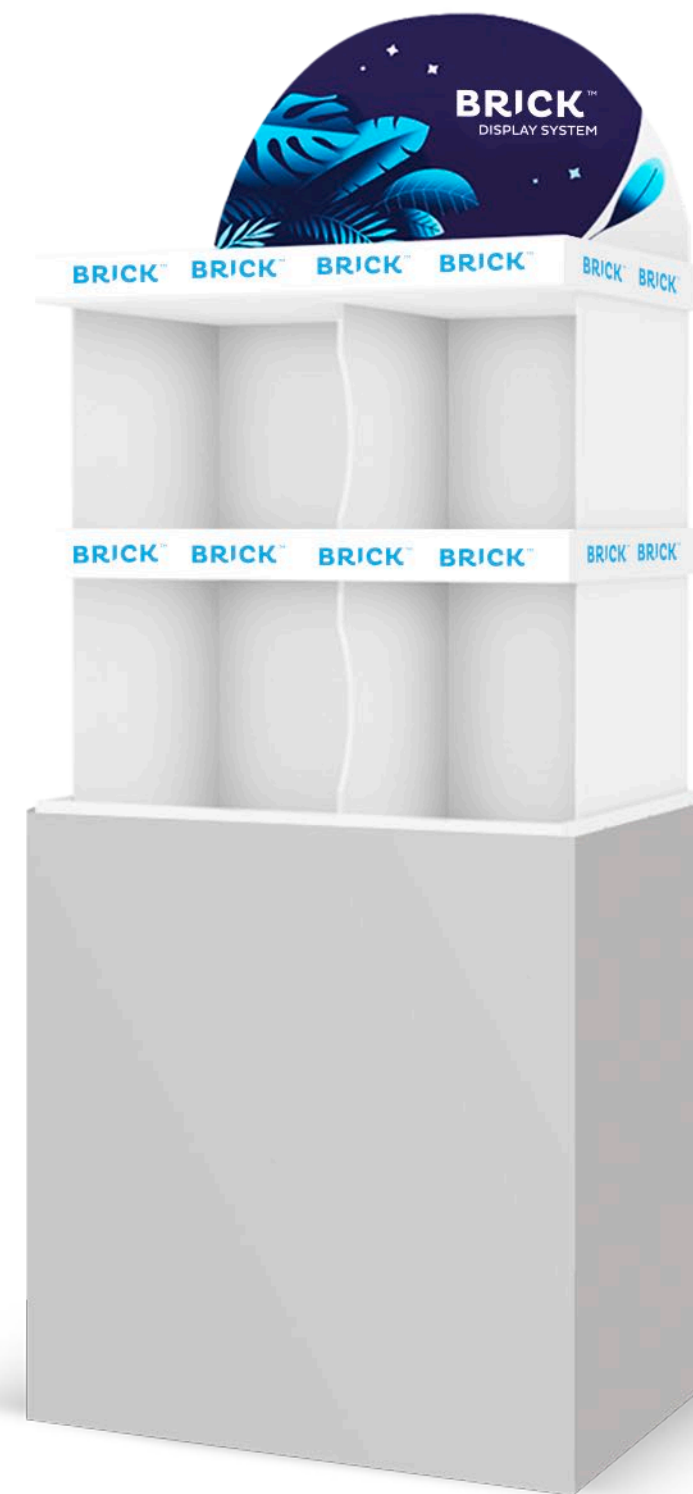

If you need a different height – we can custom build it for you.

TRANSPORT CAP

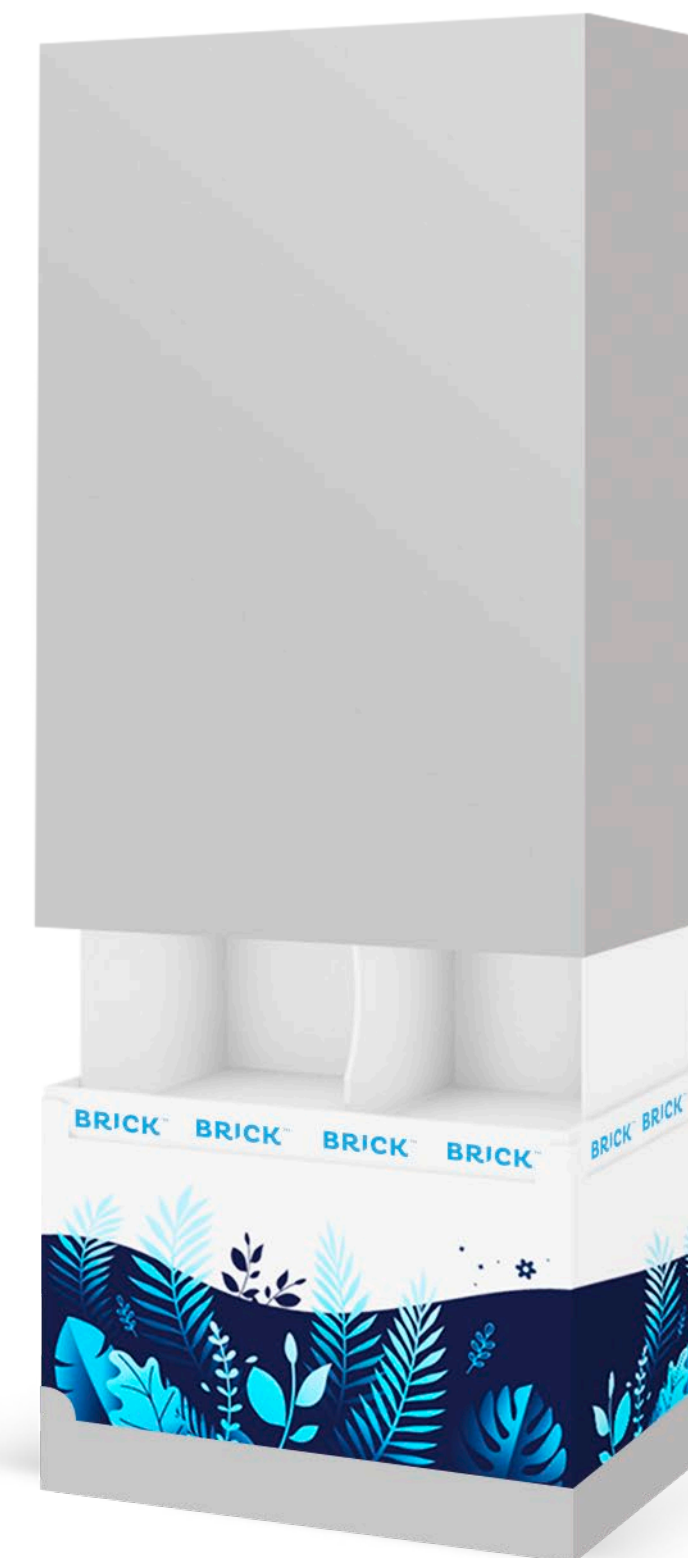

The transport cap is composed of two separate parts, so that it fits onto any display height.

The two parts overlap each other with room to spare.
